

## Psoriasis Vital

### Psoriasis Vital Vitamin B 12 Cream

in a classical dispenser with lotion pump

Psoriasis Vital Vitamin B12 Cream has been developed especially for stressed skin

The ideal combination of active ingredients is perfectly suited to prevent skin irritation.

Contains vitamin B12 and Vitamin E, which has an antioxidant and anti-inflammatory effect. No toxic responses are known.

The effect of the cream is supported by D phantenol which has been proved to have similar properties to vitamins.

The high content of avocado oil acts to moisturize and smooth the skin.

After application, protect the skin to be treated from UV radiation.
